¬ Employment

Present — **AREA 17** Designer Intern
AREA 17 is a digital product agency. As a design intern in the New York office, I support the creative team on all steps of the design process including research, conception and production of products for prestigious and demanding clients

2016 — **Bureau Beaubourg** Art Director Assistant Intern
Bureau Beaubourg Paris is a digital office that informed my artistic direction with their minimalist approach to elegant and relevant layouts. As assistant to the artistic director, I crafted layout templates and improved upon a complex online user system.

2015 — **Wellcut.tv** UX Designer Intern
Wellcut is a browser extension which enables short video clips to be shared. During my internship, I tracked usage metrics (Google Analytics) to inform my design and develop the extension product.

2014 — **So'Hetic** Visual Communication Manager
As a volunteer, I crafted logos and brand's identity print and digital identities for each events. Also, I participated to events organisation an animation in collaboration with the co-volunteers.

¬ Hobbies

Art
Painting, Pottery

Psychology
Interested in cognitive and social psychology

Travel
USA, Vietnam, South Africa, Zimbabwe, Australia, United Kingdom, Germany, Czech Republic, Malta, Italia, Spain, Reunion Island

¬ Education

Present — **HETIC**
Expected to complete a title1 certification (Bac+5) in 2018 at HETIC, one of the leading web schools in France. HETIC allows us to be multi-disciplinary in digital communication engineering by providing courses in design, development, marketing, and business development.

2013 — **MASS**
The MASS program focuses on elementary and applied mathematics, algorithmic computing and programming. It is complemented by a specialization in economics.

2012 — **Scientific Baccalaureate**
